To Whom It May Concern:

The Hailey Public Library, in conjunction with the City of Hailey, retained Linda Love (dba Housekeeping with Love) to deep clean our building.

Linda is very thorough. She came to the library to do a walk through with the director and myself to assess our needs and wishes. She made a mental list of the specific things that we asked her to do. A reasonable amount within our budget was established based on the time she thought it would take her crew to meet our expectations.

After Linda and her crew had cleaned the library, there was a noticeable improvement to the overall cleanliness of the library. All of the things that we had asked her to do were completed. Linda made a follow up visit the day after to make sure that we were pleased and that she had not missed anything.

I have known Linda for many years, both personally and within a work environment. I feel that she is very responsible and she takes great pride in her work. We plan on contracting again with Linda within our current fiscal budget and thereafter. We were very pleased with her services and I highly recommend her to others.

Sincerely,

Re: Employment of Linda Love, Belleview, Idaho

From: Ellen Brumback

Linda Love has been employed by me and my sister, Frances M. Brumback, as a housekeeper and condo security- checker, for well over 10 years.

We have a condo at the Villagers Condo Assn. in Sun Valley and are in Sun Valley from June through October each year. The rest of the year we live in Orlando, Florida. We have visitors and friends use our condo during the winter months from time to time.

Linda has kept our unit clean and safe at all times. She does a very good job and is totally reliable. Her husband, Roy, also helps us from time to time as he is retired and formerly worked with a very reliable construction company in the valley. They are both good people and loyal.

Linda also has been employed by some of our Sun Valley condo friends who have also used her over the years as well.

She tries to please her employer. Once you tell her how you like something done and what her duties are, she follows through.

We trust her and recommend her as an employee to anyone who respects people like her.
